Extension Educator: Beth Boomershine

1. Small Booth

2. Large Booth

BOOTH AWARDS

1st-5th place winners Large Booth

1st -5th place winners Small Booth

1. **Request for Booth Space:** 4-H clubs must notify the Junior Fair Board by June 4 if they want a booth space. Girl Scouts and Scouts BSA will be provided booth space for their total organization's participant's entries. Junior Fair Booth Request will be made on **FairEntry** by all 4-H organizational head advisors.
2. **Size of Booths:** 4-H clubs may select from two booth sizes: Single booth - 8' wide by 6' deep, and a double booth - 16' wide by 6' deep. In order to request a double booth space, a 4-H club must have 35 or more non livestock 4-H projects. When there are more requests for double booth space than available space, the number of club members will also be used to decide double booth allotments. Final decisions will be made based on the total number of members and projects in a 4-H Club. The 4-H organizational advisor of clubs requesting double booth spaces will be notified if their request cannot be honored.
3. **Electrical Needs:** Youth groups needing access to electrical outlets, must indicate their request on the Booth Request section of FairEntry. No electric outlets are available in the middle aisle booths. The electric booths will be assigned on a first come registered basis, after the opening registration date.
4. **Theme:** Youth groups may choose their own theme.
5. **Club Identification:** 4-H Club and 4-H member's first names should be in the booth and on each project respectively, along with the awarded ribbon. A representation of the project needs to be displayed and should be in place before fair opens on Saturday.
6. **Project Displays:** Clubs/Organizations are responsible for constructing and decorating their booth space. Every 4-H, Girl Scout and Scouts BSA member exhibiting at the fair must display their project(s)/or representative display in the club/organization's booth unless on exhibit in the livestock or horse barns.
7. Member's first names should be in the booth and on each project respectively, along with awarded ribbons. The project or representation needs to be displayed and in place before fair opens on the first day. Remember a **project book does not** constitute a display and should not be left in booths.

Project Displays

Acceptable Project Displays:

- Includes first name of member.
- May be the display used for project evaluation.
- Could be a visual (3D) representation of project subject.
- Includes ribbons received for project evaluation (can be added after evaluation)

Unacceptable Project Displays:

- A Project Book is not a display.
- Should not be a piece of paper with name and project listed.
- Firearms/weapon of any kind (working or non-working) are not allowed.

8. **No Food or Animals Allowed:** No food items or live animals are allowed in the booths.
9. **County Booth:** A County Booth will be available for clubs who do not want to have an individual club booth.
10. **Required Exhibit Watch:** All 4-H Clubs with a display in the Ganyard Building are required to sign up to watch the exhibits in the building. The recommendation is for at least 2 adults and 2 youth members to be always present during your shift. Failure to complete this shift will result in the club not being given booth space the following year. Boy Scouts and Girl Scouts must also take turns watching the exhibit area in the building. Requests for building watch times will be made through the FairEntry system.
11. **Release Time:** Exhibits will be released Monday between 9:00am and 7:00PM. Exhibits may also be walked from the fairgrounds on Sunday at close of fair. Items may be removed from booths between 5:00 and 9:00 PM (**Not** prior to close of fair), to be walked out, no cars will be allowed on grounds at this time. Exhibitors whose exhibits leave the fairgrounds prior to this time without written authorization from the Junior Fair Board will not be allowed to show at the Franklin County Fair the following year. This includes all displays and awards.
12. **Booth Display Requirements:** All Clubs must cover the back and sides of their Booths if it shows in your neighbor's booth. Please use a solid color to cover the back and side of your booth.
13. **Booth Assembly Requirements:** No drilling, staples and tape is allowed on walls in Ganyard Building. You must bring your own backdrop for all booths, drapes and frames will not be provided.
14. **Items Allowed in Booths:** Sand, sawdust, glitter, dirt, confetti is allowed in the booth only **if it is contained in an area and will not blow out into the aisle way**. Baled straw or hay is allowed if covered in plastic.
